Product Information

APPLICATION: For use in plaster & grout and shotcrete applications, handling a multitude of materials being pumped to concrete structures, dams, tunnel faces, swimming pools, etc. For use as a flexible connection between pumping equipment and hard piping. Exceeds ASME B30.27-2009.

2:1 WP to burst ratio

CONSTRUCTION TUBE: Black TufsynR synthetic rubber

COVER: Black Plioflex Rubber (wrapped impression)

REINFORCEMENT: Spiral-plied high-strength fabric

TEMPERATURE: -32°C to 82°C

Double End	10m	SH85-20-10D
Single End	20m	SH85-20-20S
Double End	20m	SH85-20-20D

Product Information

APPLICATION: : PCS 85 BAR Wire Braided Concrete Hose is a heavy duty hose used for concrete placement applications in concrete structures, dams, tunnel faces etc.

Ideal for use as a flexible connection between pumping equipment and hard piping.

REINFORCEMENT: High-strength wire

TEMPERATURE: -32°C to 82°C

PCS Fabric 55BAR Reducing Drop Hose with Single Victaulic End

- Used on concrete boom pumps
- Helps reduce the flow of the concrete to ensure minimal splash when concrete exits hose

CONCRETE HOSE PIPE INSPECTIONS, TAGGING AND HYDROSTATIC TESTING SERVICE

Hose Inspections

We offer a free visual inspection on all concrete hoses at our Campbelltown warehouse that looks at

- Thickness of hose tails
- Wear and tear damage including the identification of any outer hose damage that may affect the working pressure of the hose
- Corrosive damage to the hose tails and ferrules.

Tagging

- PCS works with our biggest clients in implementing a hose management program using infochip® weldable RFID chips to tag each individual concrete hose.
- The RFID chips are welded onto the end of the ferrule and are readable off any android phone.

Hydrostatic Testing Service

- PCS has an in house hydrostatic testing service using water with compressed air that can test concrete hoses up to 170BAR.
- Tests are conducted in accordance to Australian Standards
- Each test certificate will link back to the RFID tag on the hose being tested
- We can test new hoses as well as conduct the required yearly pressure testing on your hose.
- PCS is happy to arrange pickup and delivery of any hose that needs to be tested Australia wide using any one of our network of couriers
